Taking Action!
Keeping Children, Schools, Families and our Communities Healthy!

"This year, being so inspired from last year's Health Summit, I joined the Mass PTA Health Committee Team and am bringing a team of six people from my Community.

I had the opportunity to attend last year along with my Vice President, a parent within our PTA community and our guidance counselor. Each of us found the information to be relevant in supporting the entire well being of our students.

The information shared inspired our PTA to create a Health Committee. This committee includes, Pediatrician(s), Nurse(s), Dietitian(s), and mindful professionals. Over the year, the team contributed articles to our monthly newsletter on various topics including: benefits of sleep, yoga, car safety, and creative play. The team was able to bring thoughtful health programs to our student body. The addition of this committee has been valuable to our entire Thomas Prince community."

This was a well organized event! Please repeat it again next year!".....And we are on November 16,
